

## **State of the Chapter Briefing for Council of Club Leaders Annual Meeting**

Your Chapter Name:

### **State of your Chapter's Conservation Goals**

How do you currently view your Chapter's conservation work this year- Did you set any particular goals? If so, how are they progressing? What is working well? What was your biggest success? Where do you need help? What tips can you share with other Chapters?

### **State of the Chapters- Working Relationships**

Currently do you feel your Chapter is cohesive? Or does your chapter struggle with personality conflicts? Are you satisfied with how you work together? Are there areas where some additional assistance would be beneficial? (If so, what?). If your chapter works well together, what can we learn from you so that we can share your best practices with other Chapters?

### **State of the Chapters- Budget & Finances**

We would like to gather some feedback on how each Chapter feels they are doing on their Budget & Finances. Obviously there are never enough funds. But do you feel your Chapter has been able to run their programs effectively with the financial resources they have? What tips can you offer other Chapters?

### **State of the Chapters- Other Resource Needs**

What are your greatest challenges? Where do you need the most help? Pick one or two main areas.

*(I would very much appreciate if you can spend a few minutes with your Chapter Chair and/or ExCom and collect this feedback no later than SEPT. 1 so that we can compile for our Annual Meeting. Thanks-Lane. Email completed forms to [Lanebold@earthlink.net](mailto:Lanebold@earthlink.net) or copy them onto the Council Discussion Forum under the State of the Chapter section).*
